# "TODAY THE WORLD IS A COLORFUL JUNGLE"

In the world of the wild and curious, nothing  
is mere coincidence and no detail is left  
unscathed. This mysterious world is full of prodigies,  
alpha males and females leading  
the pack with their disruptive trends and superior styles.  
This is an abode to everything they stand for.

*"What  
is too  
much?"*

## **Just Cavalli**

In 2000, Roberto Cavalli created a new line representing free spirits called Just Cavalli. Symbolizing strong personalities through the use of modern materials and experimental graphics, the line has stood out as a means to express the style of tomorrow, constantly being reinvented and interpreted in an original way.

## **Just** exotic

Only a handful of men could teach the world something about challenging the ordinary. Just Cavalli's experimental nature captured the relentless desire to create some of the world's most exotic and innovative designs.

Daring prêt-à-porter creations, bold printing techniques and the glam and rock attitude paved the way for a brand that's second to none.

"Nature  
is my  
main

source  
of  
inspiration"

## Just home

A design pundit is not bound by any medium. Just Cavalli extended his vision beyond patterns, garments and the sensational catwalks to the alluring world of home décor. He wanted to apply his unorthodox style to furniture and home interiors. From wild wallpapers to exquisite coffee tables, the home collection introduced a new era for interior design.

## Just for you
