NOTE:

All room dimensions are measured under the metric system and in relation to structural elements, excluding wall finishes and construction tolerances. Calculation of suite areas are measured as the area bounded by the center line of the division or party walls separating one unit from another unit, the exterior surface of all exterior walls and the interior surface of the corridor wall or enclosing and abutting the unit. Calculation of terrace area is measured as the area bounded by the center lines of the division or party walls separating one unit from another unit, the outermost face of the enclosing guard and the exterior face of the site abutting the balcony. All materials, dimensions & drawing features and amenities are approximate, at the time of printing. Information is subject to change without notice. Actual suite areas may vary from the stated area. Drawings are not to scale. The developer reserves the right to make revisions.

NOTE:

All room dimensions are measured under the ceiling system and in relation to structural elements, excluding wall finishes and construction tolerances. Calculation of site area are measured as the area bounded by the center line of the driveway or parking walls separating one unit from another unit, the exterior surface of all exterior walls and the exterior surface of the corner wall on one long and abutting the unit. Calculation of terrace area is measured as the area bounded by the center lines of the driveway or parking walls separating one unit from another unit, the outermost face of the enclosing guard and the exterior face of the site abutting the balcony. All materials, dimensions & drawing features and annotations are approximate, as the time of printing. Information is subject to change without notice. Actual site areas may vary from the stated area. Drawings are not to scale. The developer reserves the right to make revisions.

NOTE:

All room dimensions are measured under the metric system and in relation to structural elements, excluding wall finishes and construction tolerances. Calculation of suite areas are measured as the area bounded by the center line of the double or party walls separating one unit from another unit, the exterior surface of all exterior walls and the interior surface of the corridor wall or enclosing and abutting the unit. Calculation of terrace area is measured as the area bounded by the center lines of the double or party walls separating one unit from another unit, the exterior face of the enclosing guard and the exterior face of the site abutting the balcony. All materials, dimensions & drawing features and amenities are approximately at the time of printing. Information is subject to change without notice. Actual suite areas may vary from the stated area. Drawings are not to scale. The developer reserves the right to make revisions.
