ALJURF

About AlJurf

Nestled along the Sahel Al Emarat Coast, AlJurf adds a new layer of beauty to the existing landscape. Integrating itself within the natural environment, AlJurf is a masterpiece that preserves and enhances the existing environment, perpetuating a legacy, rather than changing it. AlJurf will feature a range of facilities including a world-renowned wellness clinic and retreat, unique residential communities and serviced residences, and marinas.

All these components will be carefully integrated within the natural landscape of AlJurf so as to not disturb its harmonious beauty, but rather capitalise on it. Guests and residents will become the protectors of the ecosystem in the same way our ancestor were, while enjoying the simple luxury provided by this intricately weaved work of nature and design.

Why AlJurf?

Strategically located between Abu Dhabi and Dubai, stretching across 1.6 km of sea front, on the Arabian Gulf and spanning across 380 hectares, AlJurf will become the new destination in the UAE, introducing a truly unique concept of community-living, that will become the 'seed' for oSahel Al Emarat, the new Riviera Destination for the region.
